PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:

Caution: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. Call: 1-800-543-TURF (8873)

Environmental Hazards

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

Spreader Setting

Covers 5,000 sq. ft.

Apply header strips. Then apply product in longest direction of lawn. For best results, use a Scotts® spreader. Shut off spreader or stop each time you reach a header strip.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Information

For use on newly seeded, overseeded, or newly planted Kentucky bluegrass, tall fescue, perennial ryegrass, centipedegrass, as well as fine, spreading and creeping red fescues.

This product is for application to home lawns and applies 0.15 pounds of mesotrione per acre per application. The maximum application rate of mesotrione per treatment site per year is 0.45 pounds. This package applies 4.3 pounds of product per 1,000 sq. ft.

Apply this product before watering newly seeded, overseeded or planted grass for the first time.

New weeds will sprout white or turn white and quickly die. This product will not kill existing weeds.

Use Precautions

Do not apply this product in a way that will contact any person, or pet either directly or through drift. Keep people and pets out of the area during application. Do not enter or allow people or pets to enter the treated areas (except those involved in the watering) until the watering-in is complete and the surface is dry. Do not use this product on flowers, shrubs, trees, fruit or vegetable plants. Cana, day lilies and irises are especially susceptible to injury. Do not apply another pesticide within seven days of an application of this product as turf injury may occur. Do not apply to St. Augustinegrass, bentgrass, bermudagrass, zoysiagrass, dicandra, kikuyugrass, bahiagrass or lippia.

Application Instructions

Apply on a calm day and lightly water to activate. Apply when temperatures are consistently between 60°F and 90°F. Avoid applying to adjacent flower beds when using a rotary spreader.

This product may cause temporary whitening of grass foliage. In general, symptoms appear five to seven days after application and may last up to 14 days. Discoloration is most likely to occur on ryegrass lawns.
